Notes:

Land Use Areas (LUA) are numbered consecutively from one (1) upward for each sheet and include the LUA within the statutory road allowances on the south and west sides of the sections. The extent of the new field was determined using GPS technology on June 24, 2010. All unsurveyed boundaries are subject to precise determination by future survey. This plan may be used to describe land for a lease or permit of duration of not more than ten (10) years. This plan compiled from IKONOS satellite imagery collected August 10, 2006.
